

Humidity Temperature Transmitter

CMOSens® & Microprocessor

This transmitter is adopt the **CMOSens®** technology, measure the humidity and Temperature with high stability. There is 2 components in the sensor, measuring the humidity and hemperature respectively. In the same sensor chip, the 2 components was seamlessly connected with 14-bit A/D converter and serial interface circuit.

The **Microprocessor sample the humidity and temperature, dozens of times by each second**, then calculate the average signal value by the sample times (frequency) and filter time. The temperature range is -40C to 120C. The average filter time is 1 second, the range and the filter time could be fixed.

Type:

GE-371-TH01 Duct Type T-H Transmitter

GE-371-TH02 Room Type T-H Transmitter

Application:

- * Measure the Humidity and Transmitter in the Ventilation system
- * Control the critical temperature and humidity
- * Monitor the environment of room, control the environment of hospital, greenhouse, etc.

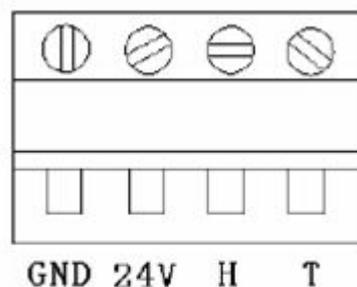

Character

- * Quickly response linearly, Integration for temperature and humidity
- * Digital circuit design
- * Programmable signal range, wide measure range, high accuracy
- * Signal filtering, more stable and reliable performance, stronger anti-interference ability
- * COM port for calibration and measurement on the spot

Technology Data

1. Temperature Data

- * Accuracy: ± 0.5 C
- * Temperature Range: 0~50C,
0~100C, -20C~80C,
or Custom-Made OEM ODM
- * Response Time: 5 s
- * Drift: small than < 0.04 C/year

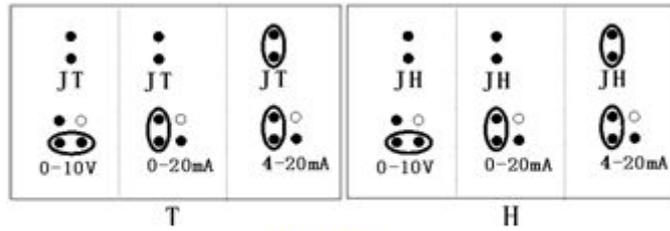

Wire Connecting

A.YITE GROUP LIMITED Shanghai Branch

www.ayite.net www.ayite1973.com

2. Humidity Data

- * Accuracy: $\pm 3\%RH$
- * Humidity Range: $0\sim 100\%RH$,
- * Response Time: 8s
- * Drift: less than $<0.5\%RH/year$

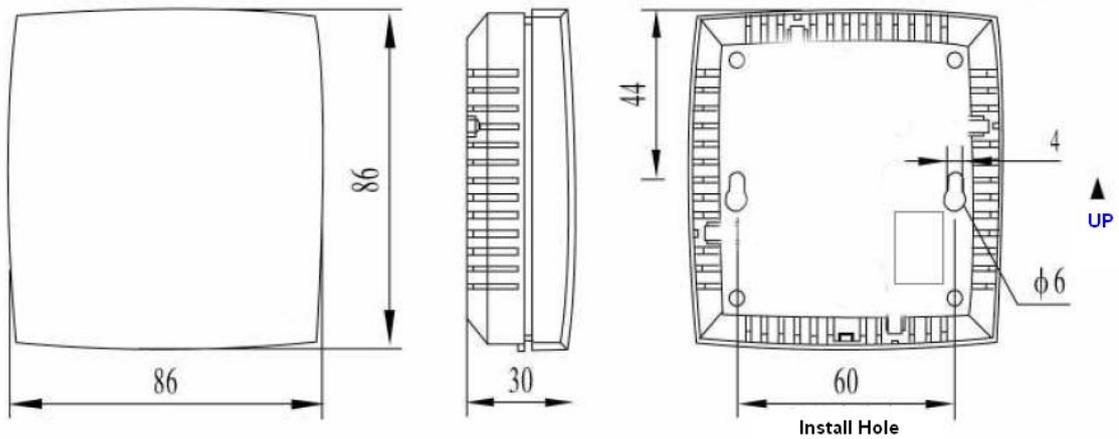

Output

3. Electronic Data

- * Power: 24VDC, Max 2VA
- * Output: $0\sim 20mA$, $4\sim 20mA$, $0\sim 10VDC$ Jumper Loop
- * Loading: $<500\Omega$ for current output, $>10K\Omega$ for voltage output
- * Protect Grade: IP65

Dimension Drawing

1. Room Type Humidity and Temperature Transmitter

2. Duct Type Humidity and Temperature Transmitter
